

**BNP PARIBAS**  
**FAKTORING**

## COOKIE POLICY

### Introduction

BNP Paribas Faktoring uses cookies on the website(s) to improve your online experience. They make sure the website functions properly and collect statistical data. By using cookies, BNP Paribas Faktoring is able to adapt the content and/or the publicities shown on the BNP Paribas Faktoring websites to your personal needs and preferences. Among other functionalities, cookies facilitate the log-on process.

By not accepting cookies, you prevent BNP Paribas Faktoring from optimising your experience on our website. Some parts of the websites will also not function ideally. By accepting cookies, you give consent for the use of cookies as specified in this cookie policy. Should you wish to, you can always change your cookie preferences.

All details regarding cookies used on BNP Paribas Faktoring domains can be found in this cookie policy. This policy also explains how these cookies are used to improve your experience.

### What is a cookie?

Cookies are small text files stored by your web browser when you use websites. You can control how websites use cookies by configuring your browser's privacy settings (please refer to your browser's help function to learn more about cookie controls).

Note that if you disable cookies entirely, BNP Paribas Faktoring websites may not function properly.

BNP Paribas Faktoring and the companies that help us run our business use cookies in several ways, such as:

- Authenticating and identifying you on our websites so we can provide you the services you requested
- Keeping track of information you have provided to us — for example, remembering information you provided whenever you fill in a form
- Remembering your preferences or where you left off in your use of the BNP Paribas Faktoring website
- Measuring your use of BNP Paribas Faktoring websites so that we can improve them, tailor our websites to your likely interests
- Understanding your likely interests so we can provide you more relevant BNP Paribas ads and content on non-BNP Paribas Faktoring websites and in non-BNP Paribas Faktoring apps

**Cookies on this website**

We have divided the cookies into **three main categories** depending on their purposes:

1. Functional cookies (not editable)

These cookies are necessary for the connection with the website to be correct and efficient, and to ensure a safe online environment. Functional cookies collect anonymous data about how the site is used and which pages are important. This is used to improve the general ease of use of the website.

TOOL	PURPOSE OF THE SOLUTION	COOKIE	PURPOSE
BNP SiteFactory	Platform that delivers content and services to the customers	axes	Stores the basic settings of the user: language, brand, edition (last category visited)
		CSRF	Cookie to prevent Cross Site Reference Forgery, to prevent calls made from other origin.
		europolicy	This Cookie is added by sitefactory and used for accessing the website, without this cookie website will not work - no user information, it makes the framework of the site work
		userInfo	Technical cookie contains fixed value, but required by the framework - no user information, it makes the framework of the site work
		distributorid	The first 2 characters of the distributorid are the distributionChannelId (49 for Mobile, 52 for Web). The next two characters represent the brand ('FB' for Fortis Bank, 'KN' for Fintro) and the last three characters the application (001 for EasyBanking, 002 for Hello Bank! application) - ID of the website, to differentiate between websites
		cookieDisclaimer	Used to track if the cookie disclaimer message is shown to user or not - first visitor cookie to show the banner - in new tool, lifetime will be 6 months, so after 6 months he will see the info/banner again
		COOKIES_SETTINGS	Used to track if the cookie disclaimer message is shown to user or not - first visitor cookie to show the banner - in new tool, lifetime will be 6 months, so after 6 months he will see the info/banner again
		(*-)JSESSIONID	Technical session cookie: to divert the website visits to different machines in the back-end. Not all visitors go on the same server. If a server crashes, the visit can be reverted to another server. This cookie identifies which user lands on which server. It ensures equal distribution of the visitors to the servers - to ensure stability of the performance

		<b>AMWEBICT!%2F!myaxes</b>	This cookie is used to differentiate the private banking and wealth customer and to display the private banking content to unauthenticated wealth customers. At this moment the site doesn't differentiate by default between private and wealth. Once user logs in, and is wealth, he will see the wealth content. This is for privacy of wealth clients: if someone uses the computer of a wealth client, then he will not see it is a wealth client unless he is logged in. - privacy by design: even if authenticated, the cookie is needed, because front-end wont take the data from back-end
		<b>PD-S-SESSION-ID</b>	Cookie for session management
		<b>TS*****</b>	Security cookie set by Firewall as a unique identifier
		<b>gsn</b>	Global session number, so cookie for session management - session ID, random number to session. If someone accesses, this session has a number. Communication reasons between client - website - server. This is not for logging.
		<b>seg</b>	Cookie to remember the customer preference of segment
		<b>plogid</b>	Technical cookie used during Login process - When a user started logging in, the logid maintains the log-in session, so the site knows that the user has logged in already. As soon as user logged in, logid will be removed. This cookie maintains the phases of the log-in procedure
		<b>logonProfiles</b>	This cookie is used to save clients logon profiles, only placed when customer wants to save this profile. Customer profile cannot be derived directly from the cookie, only of value when being used on the site.
<b>Adobe Analytics</b>	provide anonymous aggregated statistics on navigation. Allow the bank to monitor performance of the website	<b>s_sq</b>	This cookie is set and read by the JavaScript code when the ClickMap functionality and the Activity Map functionality are enabled; it contains information about the previous link that was clicked on by the user - to do reporting on website visits (how many times was website visited) - There is a "track" of the path. We don't know who visited, but we do know the path of the visit - where he comes from)
		<b>s_cc</b>	This cookie is set and read by the JavaScript code to determine if cookies are enabled (simply set to "True"). This cookie is a session cookie and expires when the browser is closed - if we don't have this cookie, we can't do performance analytics on the website (what was visited and what not)
		<b>s_pc</b>	Cookie used for gathering statistics of the website usage. These statistics are kept anonymous. (where did a person click, where did he scroll to,...)
		<b>s_ppn</b>	Record the portion of a page (0-100%) that the user views and pass the value into a variable on the next page view
		<b>s_pprt</b>	Cookie used for gathering statistics of the website usage. These statistics are kept anonymous

	<b>s_ptc</b>	This provides a native method to get accurate and detailed timing statistics for loading event e.g. when page or functionality is loaded
	<b>_sdsat_zid</b>	Custom Adobe DTM Cookie
	<b>_sdsat_enrolment_ID</b>	Used to remember the value of a unique identifier of the transaction taking place when doing an enrolment
	<b>_sdsat_language</b>	This cookie is used to remember the language in which the content is displayed.
	<b>_sdsat_MGM_sponsor_ID</b>	This cookie is used to remember the unique identifier of a godfather user in the Hello bank "Member get member" process.
	<b>_sdsat_MGM_user_ID</b>	This cookie is used to remember the unique identifier of a godson user in the Hello bank "Member get member" process.
	<b>_sdsat_user_id</b>	This cookie is used to remember the Hello Connect ID of a user when he logs in on one of the Hello Bank platforms.
	<b>visited_domains</b>	This cookie is used to remember which of the Hello bank platform the user has already visited.
	<b>s_vi_*</b>	This cookie is used to identify a unique visitor, cookie has format of s_vi_* depending on the report suite used
	<b>AMCVS_F46824205476152E0A4C98A2%40AdobeOrg</b>	<p>On BNP Paribas Faktoring websites we use the following solutions from the Adobe Experience Cloud:</p> <p>Adobe Analytics to measure performance of websites and the general behavior of visitors on our websites. We use the insights to improve the overall user experience on our web environments</p> <p>Adobe Target is used to test variants of web pages and/or parts of web pages to improve user experiences.</p> <p>We use the Marketing Cloud ID service of the Adobe Experience Cloud: 'People' core service. This ID service is using one key component of Adobe Experience Cloud: the Demdex cookie. This is only used to ensure we have the same anonymous unique visitor across solutions within Adobe Experience Cloud and improve user experience.</p> <p>To know more about about the privacy policy of the Adobe Experience Cloud or to opt-out please visit <a href="http://www.adobe.com/nl/privacy/opt-out.html">http://www.adobe.com/nl/privacy/opt-out.html</a></p>
